

# TandemEDU

*Reimagining High School*

## ACCOLADES

*from our  
college partner*

## Partnering Together Since 2016!

*Andrew Thorne*

*Vice President, Distance Education*

*“Over the past several years, it has been a pleasure for myself and others at TFC to partner with TandemEDU. Throughout this time, TFC has seen TandemEDU students demonstrate both college readiness and performance. These students model academic excellence. We are excited regarding our continued partnership with TandemEDU as their students continue to succeed. It is no coincidence that these students consistently are successful at the college level as TandemEDU relevantly prepares its students for college courses. The preparation TandemEDU offers through courses such as College Prep English, Algebra 1, and Algebra 2 specifically has students equipped for the collegiate level of these essential topics. The community, through TandemEDU, encourages accountability and helps to motivate students. These factors play a key role in TandemEDU students achieving a college GPA higher than that of the average dual enrolled student.”*

*Keri Baso*

*Director, Distance Education Partnerships*

*“Toccoa Falls College and TandemEDU share the same goal – to facilitate an environment in which students learn to glorify God in every aspect, but particularly through the development of godly character and intellect as they learn to become servant-leaders in their generation. At TFC, we are consistently impressed with the academic success of TandemEDU students, but also with their enthusiasm for learning, their penchant for clear and professional communication, and their overall commitment to excellence. TandemEDU students are among the highest achievers at TFC, and it is a direct representation of the way that TandemEDU equips these students for a lifetime of service for God’s kingdom.”*

*Jessica Mills*

*Director, Distance Education*

*“Because TandemEDU has partnered exclusively with TFC, it has given our department the joy of working with their students over a period of several years. Working with the same students and parents for several years allows us to connect in a more meaningful way, which is one of my favorite aspects of my role at TFC. As with any online program, TFC’s online classes sacrifice face-to-face interaction for the convenience and flexibility of an online format. TandemEDU bridges that gap by providing face-to-face support for our online courses – the best of both worlds.”*
